Booming Creative Economy

The booming creative economy demands innovative thinkers and problem-solvers equipped to address real-world challenges. Implementing a Design Thinking and Innovation program empowers students with critical 21st-century skills, fostering creativity, collaboration, and adaptability. This program not only enhances academic learning but positions your school as a leader in nurturing future-ready students, ready to thrive in a competitive global landscape.

Design thinking is one of the Top 10 skills that employers will need in the future.

Report by the World Economic Forum

Companies that use design thinking are more likely to be more successful than those that do not.

Design Management Institute, USA

Design thinking can help students to improve their problem-solving skills, creativity, and communication skills.

Study by the University of California, Berkeley

Future Creative Minds Program

A global skilling initiative by the World Design Council to foster creativity and prepare students for the growing creative economy. Focused on design thinking, innovation, and emerging technologies, the program offers advanced learning modules, faculty-led sessions, master classes and hands-on workshops. It features flexible delivery modes seamlessly integrated into school curricula.

Skillsets Covered

Design Thinking, Innovation, Critical Thinking, Problem Solving, Creative Skills, Analytical Skills, Data Analysis, Artificial Intelligence, Sustainability, Collaboration, Communication, Ethics & Professionalism & More

Program Highlights

Global Creative Skilling Program: Seamlessly integrated into the Indian curriculum, focusing on Design Thinking and Innovation.

Advanced Learning Modules: In-depth knowledge from design experts through advanced learning modules, faculty sessions, masterclasses etc.

Future-Ready Skills: Develop creativity, problem-solving, and expertise in emerging technologies like AI, Data Analytics etc.

Design Challenges & Showcases: Participate in global challenges and showcase student creativity on global platform.

WDC Certification & Membership: Gain prestigious certification and membership to boost academic and career prospects.

Advantages to Partnering Schools

Partnering with ISDC and the World Design Council (WDC) brings recognition and prestige to your school. It demonstrates your commitment to providing students with a world-class education in Design Thinking and Innovation

Global Recognition: Position your school as a leader in Design Thinking and Innovation.

International Skilling Program: Offer world-class education aligned with future industry needs.

Showcase Student Creativity: Access global platforms to highlight student talent.

Faculty Development: Training programs and masterclasses for teachers.

Innovative Teaching Resources: Advanced materials for effective curriculum delivery.

Curriculum Integration: Seamless inclusion of global learning modules into the Indian curriculum.

Prestige and Innovation: Gain recognition for promoting creativity and innovation.

PR and Marketing Advantage: Enhance your school's reputation and visibility with global associations and achievements.

Advantage to Students

Students benefit from WDC's advanced learning modules, expert-led masterclasses, curriculum integration for hands-on experience, globally recognised certifications, and opportunities to participate in design challenges and creativity showcases.

Global Exposure & Learning:

Learn from advanced modules designed by global experts.

Showcase & Design Challenges:

Solve real-world problems and present your innovations on global platforms.

Curriculum Integration:

Seamlessly incorporate global learning modules into existing academic frameworks.

Prestigious Membership: Join the elite World Design Council community

Workshops & Masterclasses:

Gain practical knowledge from industry leaders.

Future-Ready Skills: Equip yourself with the expertise to meet evolving career demands.

Globally Recognised Certificates:

Enhance the profile with prestigious certification.

Networking with Industry Leaders:

Connect with global experts and peers for valuable insights and mentorship.

About WDC

The World Design Council (WDC) is a global non-profit dedicated to fostering future design leaders and advancing Design & Design Thinking through international collaboration. WDC empowers design professionals with future-ready skills, providing guidance in continuous innovation and supports individuals, communities, organisations, and governments in using design thinking to address challenges for a more sustainable and equitable world.

WDC Membership Advantages

Professional Development

Through certification courses, webinars, workshops, and master-classes

Networking Opportunities

With design professionals & mentors worldwide

Stay Updated

Through industry news, updates & newsletters

Portfolio Enhancement

Through globally recognised professional body

Access to Resources

Advanced resources, tools & best practices

Engage & Collaborate

In global design challenges & competitions

Career Opportunities

Discover job, internships & leadership opportunities
